Comments from the Chair:

Articling Students North held five section meetings during the 2019/2020 year. Due to COVID-19, the CBA cancelled the remaining three section meetings. We had a wide range of topics and speakers. The meetings provided articling students with an opportunity to learn from the experiences of junior and senior lawyers in an informal setting. The articling students were very engaged at all of the meetings. Based on feedback received from the articling students, the meetings were successful - the above topics were useful and the articling students appreciated listening to the speakers' experiences and insight.
