2019-2020 marks the second year of the Privacy & Access Law North Section since its revival after a substantial hiatus. Attendance at section meetings has continued to grow. All section meetings were held jointly with the Privacy & Access Law South Section via video conferencing, allowing us to get to know southern colleagues practising in similar areas.

We would like to thank all of our presenters, as well as the presenters who were cancelled due to the COVID-19 pandemic. All of the presentations were comprehensive, insightful and of great assistance to section members.

We encourage all practitioners in the areas of privacy and access, or those who may have an interest in the area to join us for the 2020-2021 section meetings!
