Comments from the Chair:

The Young Lawyers South section hosted three webinars this year on diverse and relevant topics for young lawyers. We want to thank each of our speakers for sharing their perspectives, engaging our attendees, and connecting with young lawyers in our section. The section meetings were held by video conference and were very well attended.

We appreciate all of the feedback we have received from members, which has been positive and encouraging of this section and our topics. We welcome any member suggestions for topics or further engagement. We are excited to announce that Tava Burton will be serving as Chair in the 2021-2022 year. We look forward to another successful year for the Young Lawyers section and hopefully connecting in person with members next year!
